Docket No. 98N-1265

MAY 20 10 45

Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

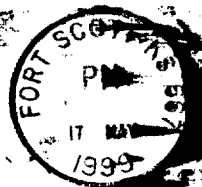

*I have been using a compounded Medication which has made a big difference in the way I feel. My compounded prescription relieves my symptoms that were very difficult to control on conventional medication. In fact I cannot take very many Medications because I have had some side effects from them. The only way I can receive my prescription is through Specialty Pharmacies, they are not available at commercial pharmaceutical manufacturers or ~~near~~ Local pharmacies in my area. I object to the FDA taking away or restricting my ability to obtain Medication my Doctor has prescribed and that I need.*
